

DELUXE COMPUTER CABINET

Your defense against body shop dust and debris

A quality computer cabinet is essential for body shops to protect their color retrieval software and computer hardware.

Fillon's new cabinet supports flat monitors up to 25" and includes a built-in auxiliary fan to prevent dust and debris from entering the computer while simultaneously cooling it down.

Several of the noteworthy features include pull-out trays for the keyboard and mouse, Dymo printer, and camera/accessory trays. In addition, the cabinet includes a protective monitor hood with a flip-up Plexi-Glass door, large industrial locking wheels, a removable access panel for accessing the CPU, 5x cable passthroughs, plus convenient storage for color tools and extra scale cable... This is the computer cabinet that you've been waiting for!

DELUXE COMPUTER CABINET
